

SPECIFICATION FILES

Typical Assembly

The TMC Mounting Plate/Connector Assemblies are designed for field conversion of the Models BAC, RAC and TRC Antenna Couplers for use with various cables. (Request Sales Service Bulletins 142, 112 and 178).

As illustrated above, the Assemblies come complete with mounting plate, gasket, receptacle and all necessary hardware. A mating plug is furnished, and where necessary, an additional plug for the far end of a cable.

The following chart shows the Assemblies available. Special Assemblies can be made on request and we invite your inquiries.

Plate/Connector Assembly No.	Series	Cables	Receptacle	Loose Plug
